Housing for switch and monitor

Vertical - housing for switch and monitor

Housing construction is compliant with requirements of General Data Protection Regulation (GDPR), as personal data must be protected and stored securely.

Housing protects recorder/monitor/switch against unauthorized access or theft. Enclosure is made of steel with a thickness of 1,2mm.

Set includes two locks (with different code) and two keys, monitor holder, RACK brackets, mounting strips, power strip, and tamper switch.

Can be mounted in enclosure:

- switches of S ... and SG series – back of housing
- RACK switches of SF, RS, and RSFUPS series – RACK brackets
- recorder – back enclosure
- monitor (max 22") – hinged mounting plate
- batteries

AW0531W
